

SCOOTA

Full-Stack Developer (m/f)

SCOOTA is a fast-growing micro-mobility services company based in Bangkok, Thailand. We offer electric scooter rental & ridesharing to meet urban commuters' demands with a new and innovative green e-mobility solution. Our e-scooters get people wherever they need to go – whether its commuting to work, going to class, running errands, going to the beach or exploring the city.

SCOOTA is hiring an experienced **Full-Stack Developer** for our Product & Technology team in Bangkok, Thailand. If you enjoy creating a superior user experience for innovative products and are proficient in building the under-the-hood components that make it all work, this is a great opportunity for you.

Responsibilities:

- Work autonomously and be comfortable executing projects from start to finish
- Produce clean, performant and maintainable code, utilize best practices in front-end work and backend code, and ensure reliability of delivered code
- Be able to iterate solutions as the needs of the enterprise change and grow over time
- Use advanced SQL techniques to extract information from databases
- Learn, contribute, to and maintain an existing code base
- Work with internal customers to create high-performing products, platforms & systems

Requirements:

- Passion for technology, agile development methods, dynamic work environment
- >5 years of hands-on experience as software developer
- Experience with C-family languages – Go language & Google Cloud as advantage
- Experience with database management systems (e.g. MySQL, PostgreSQL, Redis)
- Experience with highly scalable systems
- English speaking, enjoy working with internationals

Benefits:

- Excellent career development & growth
- Excellent learning opportunities
- Highly relevant topics with latest technology
- Fun & dynamic international working environment
- Competitive compensation
- Work permit provided

Work location: 36 Soi Goethe, Thung Maha Mek, Sathon, Bangkok 10120
(close to MRT Lumpini)

To apply for this role, please send your CV to careers@scoota.asia. To get in touch you can also contact Manuel via:
